

Installing Silk Browser for Sports Website

- If you have Silk Browser installed already, you can just enter the new website in step 3 and add to bookmarks.
1. At Amazon home screen use search at top left and search for **Silk Browser**, then install.
 2. Open **Silk Browser** and press the menu button on the remote (button with 3 lines)
 3. Enter in web address: <http://sportshd.me> and hit next.
 4. It will bring up the sports site. Now press the menu button on remote and scroll to right and click on the star to add as bookmark.
 5. The remote works like an air mouse just use the directional buttons on remote to scroll around to games.
 6. Click on top left button with 3 lines to open up menu to select the sports individually.
 7. **Enjoy**
 8. Now when you enter back into Silk Browser press the menu button and click on the **Sports HD** bookmark.
 9. **Do this only if you have problems with one click settings through Amazon.**
 10. Go into Kodi then over to **Add-ons** and **Program Add-ons** and click on **Chrismerica Wizard**
 11. Go to **APK installer** and click on **Silk Browser** and install.
 12. Now go to **step 2**
